How Much Data Do I Get?

You can do a lot with 200MB and 2GB of data. Here are just a few examples.

Monthly Activity	200 MB	2 GB	4 GB
Sending/receiving a one-page text email	1,000 emails	10,000 emails	20,000 emails
	+	+	+
Sending/receiving a one-page text email with document attached	150 emails	1,500 emails	3,000 emails
	+	+	+
Web browsing	400 pages	4,000 pages	8,000 pages
	+	+	+
Downloading/uploading a photo to social media site like Facebook*	50 uploads	500 uploads	1,000 uploads
	+	+	+
Stream a one-minute YouTube video (standard quality)	20 minutes	200 minutes	400 minutes

Usage examples are estimates. Individual results will vary based on customer's Internet usage patterns among other factors.

Manage My Usage

It's easy to keep track of how much data you've used.

- **AUTOMATIC NOTICES** - Receive a courtesy text and an email when you've reached 65%, 90%, and 100% of your data usage for the month.
- **CALL** - Dial *DATA#(*3282#) from your wireless phone. We'll send you a free text message with your usage info.
- **CLICK** - View your usage on your computer or phone through your **MyWireless account** or phone app.

Data usage information generally will be available for viewing within 24 hours or less of actual data usage.

*Using your smartphone as a wireless modem to provide broadband connectivity to other devices such as netbooks or notebooks is only available with the DataPro 4GB for Smartphone Tethering plan.

†If you already have a smartphone and data plan with AT&T (including an unlimited data plan) you are not required to switch to one of the new plans. However, if you want to save money, you may choose to switch without a contract extension.

Smartphone Data Plan Requirement: Smartphones require a DataPlus, DataPro, or DataPro 4GB for Smartphone Tethering plan. If you exceed your initial data allowance, you will automatically be charged an additional \$10 for each additional 1 GB provided on a DataPro plan or an additional \$15 for each additional 200 MB provided on the DataPlus plan. All data allowances, including overages, must be used in the billing period in which the allowance is provided or they will be forfeited. Access to corporate email, company intranet sites and/or business applications requires an Enterprise DataPro plan.
